Living Spaces Kitchen

A well-lit kitchen is a happy kitchen. Provide task lighting over countertops by placing easy-to-install LJC canless direct mount lights 24" from the wall. Since the kitchen is typically quite lived-in, features like adjustable CCT can give it a more homey feel, while LJC Smart slim downlight Bluetooth or WIFI control adds convenience for multitasking

Living Spaces Bedroom

Not only are LJC canless direct mounts a timeless and versatile choice for lighting bedrooms. They can easily be combined with other fixtures, like ceiling fans or accent lighting, to maximize functionality and draw attention to architectural features. These LJC 5CCT and Smart slim downlight canless direct mounts are dimmable at CCT-adjustable, allowing the homeowner to create a serene home sanctuary.

Living Spaces

Living Room

The perfect living room lighting scheme should provide plenty of general lighting while also highlighting design features. For ambient lighting, use one LJC canless direct mount for every 4 to 6 square feet of ceiling space. Use directional lighting like the Swivel or Gimble slim Downlight to aim the light towards fireplaces, galleries, or other focal points.

Living Spaces Bathroom

From the hustle and bustle of morning preparations to that moment of zen when you slip into the tub, bathroom lighting should always meet the moment. Fortunately, these wet and damp location-listed LJC canless direct mounts are not only safe to use in shower stalls and above tub areas. They're dimmable, CCT-adjustable, and with LJC smart lighting control, highly customizable.

Living Spaces Closet/Storage

Because LED light fixtures produce less heat, they're preferred over incandescents or fluorescents in storage areas like closets. Easy to install without bulky housing, LJC canless direct mounts are perfect for new construction or remodel applications. Experts recommend installing them at least 12" away from clothing or other items being stored.

Living Spaces

Back Porch

“Porch lights” aren’t what they used to be. Besides enhancing safety and security outdoors, the proper lighting can make the back porch more functional and enjoyable. LJC’s canless direct mount lights, which are UL damp location listed, combine the ease of surface mounts with the clean look of recessed lighting. Choose the LJC Smart slim downlight version for enhanced personalization and security features, including indoor/outdoor grouping, dusk to dawn, and “vacation mode.”

Apartment Lobby

Make a great first impression and enhance safety in building entries with LJC canless direct mount lights, designed to provide even, eye-pleasing illumination. While the smooth baffle and high CRI of the LCR make it well-suited for lobbies and other hospitality-focused environments, the LJC portfolio offers a range of energy-saving, easy-to-install direct mounts for multifamily applications.

Apartment Gym

Thoughtful lighting can help gym-goers feel alert and motivated. With LJC canless direct mounts, it's easy to achieve the proper spacing, light output, and color temperature for a welcoming and glare-free effect. These solutions feature adjustable CCT, with cooler color temperatures for improving focus and energy and warmer options (plus dimming) to promote relaxation.

Apartment Leasing Office

A leasing office is so much more than an office. It's a first impression. Not only does its lighting scheme need to promote productivity and focus, like any other workspace, but it needs to give off a certain welcoming and sophisticated vibe. Fortunately, LJC canless direct mounts are great at multitasking, with selectable technology and a high-end look that's surprisingly easy to achieve.

Light Commercial Restaurant

Lighting is often the first thing that most restaurant designs get wrong. Too much light and the restaurant loses some of its charm, but insufficient lighting will leave patrons squinting to see the menu. Fortunately, it's hard to go wrong with the LJC canless direct mount portfolio. Perfect for achieving even, glare-free ambient lighting, they can stand alone or be layered in with pendants and statement pieces.

Light Commercial Coffee Shop

Want more customers to linger over coffee and a pastry? Lighting can help. Use a warmer color temperature setting on your CCT-adjustable LJC canless direct mounts, and be sure to keep the CCT consistent throughout the space. Since these products are easy to install in any type of ceiling, dimmable, and can be spaced precisely to your liking, it's even easier to set the mood to "cozy."

Light Commercial Clothing Boutique

In small retail applications, choose LED downlights with warm CCT options—like these LJC canless direct mounts. By allowing customers to browse products in vivid color and creating a friendly, familiar atmosphere, you'll enhance the experience and encourage shoppers to stick around. Canless direct mounts can be easily paired with under cabinet or accent lighting for a pleasant layered effect.

Light Commercial Hair Salon

A stylist's work requires extreme precision, from choosing the right shade of hair color to ensuring the angle of each shear is spot-on. You'll want to choose LED downlights with a high CRI, like these solutions. Products like the LJC also feature selectable lumens, providing adequate lighting for any ceiling height. These canless direct mounts are also dimmable and CCT-adjustable, promoting a relaxing client experience.
